

## Self-Assessments

Self Assessments is a tool that enables formative assessments, allowing students immediate feedback on their responses. Question types are similar to quizzes and surveys, but self-assessments help students focus on mastery of course content without the pressure of being graded.

1. On the navbar, click Course Tools, Course Admin, and then Self Assessments.
2. Click New Self Assessment.
3. You must enter a name for your survey and you may set a category if you plan to create a variety of different types of self-assessments.
4. Click Add/Edit Questions at the top of the form. Select the question type and enter your questions. Repeat this process until the self-assessment is complete.
5. Click Save and Close.
